

# Johnny Wager

Johnnie made his name after many appearances on the 70's series of "THE COMEDIANS" when he worked with many, now legendary, names. Since that time, Johnnie has worked most of the major cabaret venues throughout the country, such as the Golden Garter and Poco - Poco, which have now sadly closed their doors. He has also toured major theatres supporting such stars as Jack Jones Jnr, Gene Pitney and numerous others.

Well used to adapting his style of comedy to suit a variety of audiences, from Working Mens clubs to After Dinner functions.

Johnnie is a particular hit on Golf dinners; indeed, Johnnie plays off a very respectable 9 himself.

Johnnie can handle any engagement that is thrown at him; a workhorse comedian with a wealth of experience, and a quick wit in one line gags.
